Frontend	React.js, HTML, CSS, JavaScript, Bootstrap
Backend & Tools	Node.js, Express, MongoDB, Stripe
Deployment & Performance	Cloudflare
AI Tools	Claude.ai, ChatGPT, Perplexity, Chatly.ai, V0.app
Other	Responsive design, UI/UX basics, troubleshooting, bug fixing, problem-solving

PROJECTS & PORTFOLIO

Source code and live demos for every project below are on GitHub (github.com/kleo2006), deployed via Cloudflare.

Personal Portfolio Website — 2026 Rebuild

- Rebuilt as a multi-section React + Vite site (Hero, About, Skills, Projects, Experience, Contact, Footer) on a custom CSS design system with light/dark theme switching and scroll-reveal animations.
- Organized around reusable components, hooks, and data files, with a validated, accessible contact form and a sticky, scroll-aware navbar.

Personal Portfolio Website (original)

kleo2006.github.io/portofolio-website

- Built a responsive portfolio website using React.js, HTML, CSS, and Bootstrap.
- Showcases projects, skills, and contact functionality.

Food Delivery App

food-delivery-cte.pages.dev

- Developed a full-stack web application using React.js, Node.js, Express, MongoDB, and Stripe.
- Implemented secure payments and a dynamic user interface.
- Used AI prompts to enhance development efficiency.

Movie App with AI Tools

movie-website-xxd.pages.dev

- Built a movie recommendation app using React.js.
- Integrated AI tools (Claude.ai, ChatGPT, Perplexity, Chatly.ai, V0.app).
- Displays dynamic content and personalized suggestions.

NorthWind IT Services Website

northwind-website-3j7.pages.dev

- Developed a professional business website for an IT services company, focused on clean layout and service presentation.
- Designed and implemented a responsive UI using modern frontend technologies and user-friendly navigation.
- Optimized performance and accessibility for a better user experience.

IT SUPPORT & TECHNICAL SKILLS

Proficient in providing technical support and resolving software or hardware issues efficiently. Skilled in bug fixing, troubleshooting, and optimizing system performance, with experience supporting web applications, assisting users, and communicating technical solutions clearly.
